DETAILED ACTION

1. This office action is in response to Applicant's response filed on 06/26/2006.
2. Claims 20, 21, 23, 84, 85, 87 and 92 are pending.

Double Patenting

3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

4. Claims 20, 21, 23, 84, 85, 87 and 92 of this application No. 09/745,395 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting

as being unpatentable over claims 24-43, 62-64, 78 and 95-112 of copending application No. 09/393,405. Although the conflicting claims are not identical, they are not patentably distinct from each other because both define inventions that are obvious variations of each other achieving the same end result. It would have been obvious to those in possession of the invention defined by claims 20, 21, 23, 84, 85, 87 and 92 to observe that the limitation recited these claims are already included in claims 24-43, 62-64, 78 and 95-112 of copending application 10/829,448. One of ordinary skill in the art would have realized that the omission of “downloading content from the source and browser authorization” is an obvious expedient since the remaining elements, defined in the claims.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Claim Objections

4. Claim 20 is objected to because of the following informalities: Claim 20, line 8 recites “ non-ephemeral”. Applicant is advised to change or remove this word. Appropriate correction is required.

Also claim 20, line 6 recites “ if”. Applicant is advised to change or remove this word. Appropriate correction is required.
